Established in 1993, the Company is a leading medical device developer and manufacturer dedicated to advancing healthcare worldwide by developing, manufacturing, and marketing medical products that help improve the safety and effectiveness of patient care. The Company product and service portfolio includes infusion products and access devices, blood collection and transfusion devices, anaesthesia and surgical products, urological products, enteral feeding and irrigation products, respiratory therapy products, patient care products, and a full-service contract manufacturing business. The Company products are distributed in the United States and more than 30 other countries worldwide.

The Company is dedicated to providing the highest quality products and services at the most competitive prices, creating the best value for our customers worldwide.

We believe that complete customer satisfaction in all areas of our operations - product design and development, engineering and technical support, manufacturing, quality control and inspection, shipping and logistics, sales, marketing, customer service - is the key to our success and future growth.

Underlying this mission is the recognition that our employees are vital in achieving the company's goals and enhancing our reputation as a world class manufacturer and an innovative leader of high quality and cost effective medical products.

To advance our beliefs, we:

- Conduct ourselves with the highest standards of professional ethics, honesty, and integrity;
- Create and promote an environment of teamwork and mutual respect among our employees;
- Offer and deliver exceptional products and services at reasonable prices;
- Partner with our customers worldwide to develop and maintain a mutually beneficial relationship on a long term basis.

THE COMPANY is a vertically integrated company with the following features:

- ISO 13485 certification
- CE certification
- FDA registration
- Strict GMP compliance
- State-of-the-art manufacturing equipment
- Over 1.3 million square feet of manufacturing space
- Medical class clean rooms (Class 10,000 and Class 100,000)
- A well trained and highly skilled workforce, over 2000 employees
- A talented engineering and R&D team

An experienced management team with strong commitment to quality, excellence, and service

The Company values its commitment to quality and prides itself on its quality assurance system .
